**QUALITY SYSTEM**  
MAINTAINED TO  
AS/NZS ISO 9002 STANDARD

## NEWSLETTER No. 3 - OCTOBER 2004

### Christmas - Just Around the Corner . . .

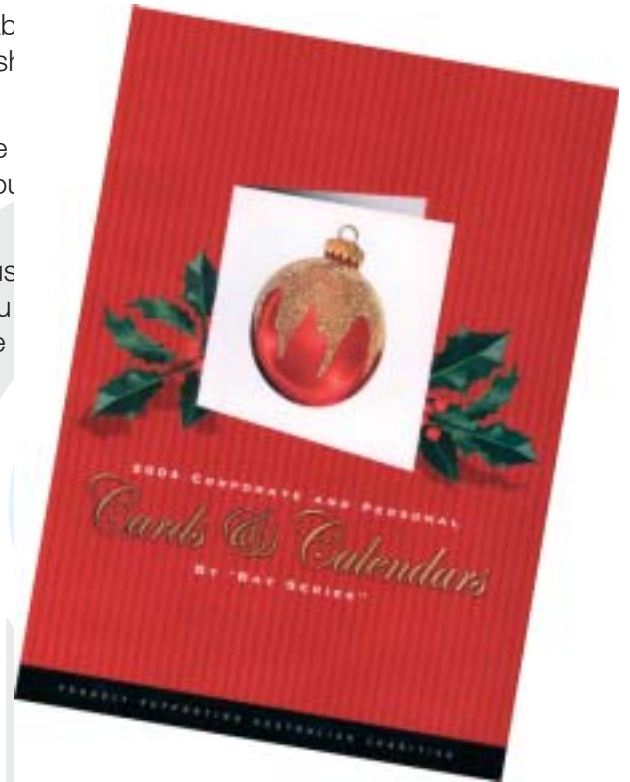

Once again Christmas is approaching and it's time to think about ordering those Christmas Cards that convey so many pleasant wishes at this time of the year.

To help you spread your festive spirit we have the latest catalogue quality Christmas Cards available again this year ready to have your message printed inside.

Some of the cards are charity supportive, some are non-religious while others are just plain pretty. We will send out a catalogue if you wish - just call Lora on 4271 5255. Alternatively the cards can be seen and touched in real life by just popping into our office.

The cards vary in price and we tailor each job to your individual needs so you really do have to ask for a quote. We also have a selection of verses to go with the cards or you can choose your own message. We are also able to insert your company logo along with the message if required.

We look forward to helping you bring the goodwill of the season to all your clients and friends with these exceptional Christmas Cards.

#### New Service for Coastline Printing Customers

Coastline has just purchased a "Clear Coat" Laminator. Now you can protect your printing with permanent laminating from Business Cards size up to A3.

Laminating can be single sided or both sides and is ideal for protecting and enhancing awards, presentations, plans, teaching aids, maps, menus, signs, worksheets and more.

Ideally suited for protecting your Business Cards from wear with a choice of Hi-Gloss laminate or the attractive Matt laminate.

Call Coastline on 4271 5255 for a quote on all your laminating needs.

Just another reason why Coastline Printing has gained the reputation of being "The Premier Printer on the Coast"

#### Coastline Printing Paper Policy

Coastline's policy on paper is to supply our customer with the highest quality paper for the parameters of their job and where possible always use Australian made paper. If you don't know what sort of paper you should use on a job you are planning give Phil a call, with his 35 years of experience in the trade I'm sure he'll be able to help you.
